PROJECT

Online Book Shop- The Online Book Portal is a web platform created to provide consumers with a smooth online book reading, shopping,and exploration experience. With a user-friendly interface for reading and buying, this project aims to establish an interactive area where book lovers can discover a vast selection of literary works.

Role- Personally responsible for the front-end development and maintenance of the application.

Achivement- During my project development, as the lead frontend developer on Online Book Shop, I Created a user-friendly interface that significantly enhanced user engagement and satisfaction. By using my expertise in HTML, CSS, and JavaScript, I crafted responsive and visually appealing designs, ensuring seamless functionality across various devices and browsers.

Technologies Used
For front-end- HTML, CSS, JavaScript
For back-end- PHP
XAMPP - To test the project on a local server
Database- MySQL
IDE- VS code
